Dear Bill Gates
Dear George Soros
Dear Albert Bourla
Dear Kyriakos Mitsotakis,

In the light of the Pfizer covid vaccine whistleblower developments in New Zealand, I give you notice your continuing attempts to murder me, silence, defund me, defame me are going to end with the severest penalties for you all.

The quality of evidence against you is first class as you know.

The notion you can continue your crimes with impunity in 2023 by suppressing evidence when there are so many covid jab victims as the NZ whistleblower data confirms is fantastical.

Your decision, and I assume you were part of the decision making to arrest Barry Young for revealing the Pfizer jab harms in New Zealand, has backfired. Now you cannot escape due process. Evidence and databases showing 1000s of people died, (one figure was 37,000 out of c 2 million vaccinated), cannot be hidden without incurring a penalty for evidence tampering.

The sooner you correct the violations and return my stolen money and give me compensation, the better for you. I can certainly sue you for slander, defamation, false imprisonment. But others will be able to sue you for my murder, magnitudes worse.

You don't find out I was right too late when you are on death row for murder of a reporter whether in the West or in Beijing.

You have 24 hours. Take some new independent legal advice. Whatever advisor you have had until now should be fired for ensuring you are going to be convicted so or so. Mitigation and reducing the penalty is your only strategy.

You should use your instruments in the monastery as go betweens.
