And - one consideration might be to work w Boris for a bit ("Bills biotech") and see if i can get him to put more in for Boris. But Boris says biotech took a big dive and its harder to find good investments

Also my expertise is public health security. Pandemics (just did pandemic simulation) and threats to US health. That could be big platform.

How were the lectures?

Did you learn anything new?

Two ideas - and mental health i think might be the best place to go deeper

1. Big autism study or national white paper that includes all voices. Some aspect of autism that would appeal to the vaccine ppl as well as the broader community

2. State of mental health in America / the prisons, the veterans, the workforce, the addicts - each has huge financial implications and to society

BG would probably be interested in the autism work if I could figure out the right angle. Might be able to get friends at Merck too.

The other i don't know

iMessage

Some immediate next landing spots (either alone or in sequence or combination somehow) could include:

- board partner at biomatics
Capital (Boris) but would mean I have to help him raise funds from BG. Offers breathing room and a private sector angle in a safe space

- BG office (for 6 months max) working on a series of messy agendas but as his senior science advisor

- rockefeller vp of schmeckelville to help reorg and set next 5 year strategy which could include portfolio on US health

- go back and practice medicine seattle / public hospital and write a book or something similar and take a vacation

- join Merck team for 6-12 months in their vaccine team (big push for gardasil vaccine/HPV) would have to base in Rwanda

- join MasterCards inclusive growth team as their "whatever" in residence or senior advisor to the CEO

- join the world economic forum as chief science advisor to klaus Schwab

- move to Alibaba in Hangzhou and immersive mandarin for 3 months then move Onto jacks international development platform (small business platform)

- LEAST FAVORITE - world bank (for 3-4 more months If I want but I really don't want) managing corporate delivery strategy and g20 health security stuff OR to the IFC health investing team

Still thinking but don't want to do something too random. There may be more I'm Forgetting but these seem most legitimate

Oh also

- join Swiss re (reinsurance) team developing health products. Did one for pandemics, helped develop parametric trigger could
Do more

- join Martin Sorrell team and help develop media tech to understand and counteract international Gov't fragility

- join TPG and help Jin Yong Cai
(Former Goldman) build china health portfolio

- run Goldman Sachs foundation (no money anymore just fake grant management) on 10,000 jobs for women portfolio

BG ... He hates mental health but he's crazy about vaccines and autism stuff. That could be start to a more broad Conversation. If I told him mental health stuff in vets might also help w Gov't exec
Office he might also consider wider agenda
